About

Senior Product Designer with 13+ years experience designing enterprise B2B SaaS products that simplify complex workflows into intuitive user experiences. Experienced across the full product lifecycle, leading product discovery through competitor research, user interviews, stakeholder workshops, journey mapping and problem framing before taking solutions from concept to delivery. I partner closely with product managers and engineers to define MVPs, balance user and business needs, and deliver measurable outcomes including AI-powered reporting experiences, scalable design systems and productivity improvements worth an estimated \$10M annually.

Experience

Sr. UX Designer
Rakuten Advertising
Apr 2024 – Present

- Led end-to-end product design for an AI-powered reporting experience used by 1,000+ users, reducing report creation time by up to 90% and delivering an estimated \$10M in annual user productivity savings through natural language search and editable AI-generated reports.
- Led product discovery through competitor analysis, user interviews, stakeholder workshops and journey mapping to define product direction, success metrics and MVP scope for complex reporting and attribution products.
- Partnered daily with Product Managers and Engineers to discuss user needs, business priorities and technical feasibility.
- Scaled the design system with reusable components, design tokens and an AI-assisted contribution workflow, enabling designers to ship independently.
- Devised a multi-touch attribution system tracking 15 interaction touchpoints for affiliate users, adopted as a key competitive differentiator.

UX Designer
Rakuten Advertising
Feb 2020 – Apr 2024

- Owned end-to-end product design for dashboard features, turning discovery research into production ready experiences that balanced user needs and business goals.
- Standardised UI patterns across three products by evolving the shared design system in close partnership with engineering, improving consistency and reducing duplicated effort.
- Collaborated closely with Product Managers to define MVP scope, prioritise features and iteratively improve dashboard experiences based on user feedback.

Jr. UX Designer
Rakuten Advertising
Jul 2018 – Feb 2020

- Designed wireframes, prototypes and user-friendly interfaces for affiliate products while developing expertise in user centred design, information architecture and usability testing.

Sr. Creative Developer
Pure360
2014 – Feb 2018

- Developed responsive, cross-client compatible email templates for major brands. Supporting high-volume campaigns.

Email Designer
Friday Media Group
2013 – 2014

- Designed and delivered bespoke email marketing campaigns while managing client relationships from brief through delivery.
